books, articles, videos & toys

---

## Accreditations

DCO is nationally accredited by CARF and approved by the Department of Elementary and Secondary Education. We provide First Steps Therapy in Greene, Christian, Stone, and Taney Counties.

# About the Program

- Philosophy of maintaining excellence in therapeutic treatment practices.
- Individual-centered education and treatment which will increase independence and functioning in daily activities.
- Cooperative and team teaching provides the most stimulating learning environment. Family is the focal point.

We provide a therapy program which **stimulates growth and development** for the individual enrolled as well as helps him/her to regain any lost skills and abilities. We aim to help each person develop to his/her fullest potential in the therapeutic areas of need.

Our therapists provide direct therapy to individuals through home visits, family/caregiver training, or treatment plans. They assist the classroom teachers, parents, or other interested individuals in developing strategies and programming which can be integrated into the **natural routines and schedules** of the individual or family.

Therapy or evaluation appointments are scheduled based on the recommendation from a physician and/or team. An Individual Plan will be developed which includes type of therapy, frequency of the sessions, goals, strategies and duration of services.

---

## Fees for Services

Our fees for service are the lowest in the region. Our Finance Department is available to assist you in researching financial resources. DCO is an approved vendor for First Steps, Medicaid, Vocational Rehabilitation, and the Regional Office. Private insurance can be billed for therapy services for individuals who have these benefits.
